

Achieve the Red Hot Hollywood Curl

Redken Shape Control is creating voluminous frizz free curls and waves

If you want to have red carpet celebrity curls and waves, a new product by Redken called Shape Control can help make that happen.

The new product will leave you with touchable, shiny, frizz-free curls and waves.

The new Urban Curls Service can create perfect waves or curls for anyone— permanently.

Unlike traditional perms, this treatment uses the latest technology to create texture and offers results that will suit your hair type and flatter the shape of your face.

The Urban Curls Service provides customizable curl patterns using a thermal curling iron. Redken's service will leave your hair thermally reconditioned so that it is softer, shinier and less frizzy.

Call the salon to set up an appointment.

STYLIST REFERRAL PROMO

Free Haircut With Your Stylist

Each Stylist will be giving away one FREE haircut. Refer a new client to your stylist during January or February and your name will go into a drawing to win a haircut with your stylist.

Client referral must be a new client to Salon Santina's. Existing clients will be entered to win for each new guest they refer. New guest must complete service before February 29th, 2012

Stop in to try Redken's New Shape Control hair now!

NEW Shape Control is a two component, completely safe texturizing system that helps you create a range of customizable, permanent results while conditioning the hair.

Stylist Tip of Month

Do you want voluminous curls on lengthy layered hair just like the stars? Start with dry hair and take 1.5" sections. Using Redken Spray Starch spray each section and set with a 2" curling iron. Then pin each curl at the base with a roller clip. Let it set while you finish up your make-up; then remove before you walk out the door. Voila, beautiful bouncy curls!
